TECHNOLOGY

FOREFRONT

New digs for your new business

Resurrected in a historic building at 1245 East Wash, the **Metro Innovation Center** is a series of ten suites, equipped with the latest technology designed to support Madison's emerging computational and computer intensive start-ups.

Voice and Data Service

A 1 GB data connection to UW-Madison and Internet that is secure, monitored and available 24/7 is included. VOIP phone service from TDS is provided. FlexTec, virtual "green" computing, supported by MGE and Aberdeen, with Microsoft Small Business Server services and 75GB of dedicated and secure storage for each company.

Server Room

Fully powered and wired to each suite; secure, climate controlled storage, at no additional cost, to keep server rack heat and noise out of suites.

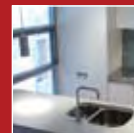

Suites

Wired and ready to go with phone and data, the finished suites accommodate from 2 to 6 employees in a secure, open office environment

Kitchenette

Coffee station, refrigerator and microwave, for day time snacks, meals or late night grazing.

Conference Rooms

Two rooms – one formal for client and investor meetings and one casual for creative problem solving – equipped with data and voice service and available at no additional charge through web scheduling.
